

Instantpot Korean Beef:

Ingredients

4 pounds bottom roast, cut into cubes
salt and pepper
2 tablespoons olive oil
1 cup beef broth
1/2 cup soy sauce
5 cloves garlic, minced
1 tablespoon fresh grated ginger
1 pear or Granny Smith apple peeled and chopped
juice of one large orange or 2 small
Crushed red pepper flakes (if you want spicy ????)

Let's make it!

Season the cubed roast liberally with salt and pepper.

Heat Instant Pot to sauté. Once the pan is hot coat the pan with the olive oil and in batches brown the meat on all the sides. Transfer meat to a plate while you're working.

Once all the meat is browned, de-glaze the pan with the beef broth, scraping up all the browned bits.

Pour in the soy sauce and stir to combine.

Return all the meat back to the pan and then place the garlic, ginger and pear on top of the meat, stirring lightly to slightly combine.

Finally add in the orange juice.

Place the lid on your Instant Pot and using the manual button on high pressure set to 45 minutes. Make sure the valve is closed.

Once the pot is done, release the steam and shred meat using a fork I find shredding the meat lets it absorb the juices better but you can leave it cubed if you wish!

Serve over rice or even better make it into tacos!

Bonapito!
